

ZOÉ CHARRIER

SEEKING AN INTERNSHIP IN DATA & AI | BUSINESS ANALYTICS | IT CONSULTING

zoe.charrier.23@neoma-bs.com | +33 7 87 80 46 53 | www.linkedin.com/in/zoe-charrier | Portfolio | Ile-de-France

NEOMA Business School student with a strong interest in tech and data. I have developed a dual business and technical skill set, with a particular interest in **data analytics**, **machine learning** and **artificial intelligence** applied to **business challenges**. Comfortable working in dynamic, technical and multidisciplinary environments, I am currently seeking a 6-month internship starting January 2027.

SKILLS

BUSINESS INTELLIGENCE :	KPI analysis, A/B testing, reporting, dashboarding
DATA & AI :	Machine Learning, data mining, statistics, data visualization
PROGRAMMING LANGUAGES :	SQL, Python, JavaScript, DAX, VBA
TOOLS :	MySQL, Pandas, Scikit-learn, NumPy, Power BI, KNIME, Excel, Git, AWS SageMaker
SOFT SKILLS :	Adaptability, attention to detail, autonomy, analytical thinking, problem-solving, teamwork, storytelling
LANGUAGES :	French (native), English (C1 – IELTS 7.0/9.0), Spanish (B2)

PROFESSIONAL EXPERIENCE

VENTE-UNIQUE CRM Project Assistant Intern - Pantin	June – December 2025
- Analyzed CRM data from over 3M customers through automated reporting and dashboards (Eulerian, Emarsys, Power BI). - Analyzed marketing campaigns and managed 20+ A/B tests, helping optimize open rates, click-through rates and average order value, with improvements of up to +10% on selected KPIs. - Contributed to the rollout of the company's operations across 3 new markets and monitored the performance of launched campaigns.	
MALAKOFF HUMANIS Marketing & Business Development Project Assistant Intern - Malakoff	April – July 2024
- Conducted insurance benchmarks and competitive analyses, and contributed to website SEO optimization. - Created marketing materials for sales teams and international partners.	
DSD Freelance Event Hostess - Paris	2024 – Today
Supported premium clients and provided operational assistance during corporate events for companies (TF1, Louis Vuitton, Station F).	

DATA & BUSINESS ANALYTICS PROJECTS

HR Data Analysis - Power BI Power Query DAX
- Conducted a multidimensional analysis of over 70 years of HR data covering 11,000+ employees, including salaries, budgets, training, mobility and demographic data. - Designed an interactive Power BI dashboard to analyze budgets, salaries, career progression, diversity and training, with the aim of identifying trends and performance gaps.
Machine Learning Business POC - Python AWS SageMaker Scikit-learn PCA K-Means
- Developed a customer purchase behavior segmentation model using a dataset of over 30,000 grocery store customers, leveraging PCA and K-Means clustering. - Identified opportunities for targeted marketing, cross-selling and promotion optimization, with an estimated potential of +2% to +5% in revenue and +5% in average basket value. - Designed an 8-week, \$10K POC, deployed on AWS SageMaker, and presented business recommendations to an evaluation panel.
Fraud Detection & Predictive Analytics – KNIME Classification Random Forest Gradient Boosting
- Developed 4 classification models using 20,000 automotive insurance claims to detect fraudulent claims. - Selected a Gradient Boosting model achieving an F2-score of 0.77, 82% recall and 86% accuracy. Identified the 25% highest-risk claims with a lift of 1.26 and translated model predictions into an investigation prioritization strategy.

EDUCATION

QUEEN'S UNIVERSITY - Kingston, Canada	EPITECH - Barcelona, Spain	NEOMA BUSINESS SCHOOL - Paris, France
January – May 2026	October 2024 – February 2025	2023 - Today
